

# What's New in Campus Dining

Through a series of student focus groups, we have developed a selection of new plan offerings built on the feedback provided by you, as well as popular trends from many campuses across the nation.

## We Heard You!

### EAT ANYWHERE

Plans with more Flex dollars (currently known as Bonus Bucks) so you can dine anywhere on campus and take advantage of all our retail locations- Any dining hall (subject to RSDH lunch parameters), any retail location.

### EAT ANYTIME

Plans have more flexibility by eliminating meal time restrictions-every plan includes breakfast, lunch, dinner and late night.

## Menus for the Campus

We're offering a whole new concept in residence dining. We're adding grab n go meals to provide you with the retail quality you want with the convenience you need during your busy day.

We'll also be adding even more fun events, themed meals and guest chef nights to keep your dining experience fresh and exciting. Some great events for next semester include Black History Month celebrations, authentic Thai and Vietnamese menus from celebrity chef Mai Pham, a Cinco De Mayo Party and more!

Finally, we are changing up our menus in all resident dining halls, including late night. Based on your feedback and input from our student board of directors, look for more of your favorites.
